

Regarding Pier Maintenance Form for Marine Contractors:

This is a required form to be filled out and submitted to the Mashpee Conservation Department for all dock repairs in the Town of Mashpee. This form is not for dock rebuilds or new dock construction but rather for docks that have been damaged by the winter ice. Please be sure to fill out the attached form completely prior to any repair activities. A follow up inspection will be necessary for each dock repair.

Thank you for your anticipated cooperation in this regard.

Sincerely,

-Drew
