

TOWN OF MASHPEE
PIER MAINTENANCE FORM FOR MARINE CONTRACTORS

SE 43-_____ Original Applicant's Name: _____

Project Location: _____ Map:_____ Parcel:_____

Certificate of Compliance Issued?:___ YES___ NO If no COC issued, no work may be performed until COC is applied for.

Requirements for Maintenance of Permanent Piers

As a marine contractor doing business with the Town of Mashpee, you are expected to comply with the following requirements for maintenance of docks or piers and their associated structures. Please complete and return to the Conservation office prior to commencement of work. **Once work is completed, notification to the Conservation Department is required.**

When considering maintenance work:

- Customer's name: _____
- Review the most recently Approved Pier Plan. Check with the Approved Plan date in the Order of Conditions and any subsequent revisions. Notify Conservation Department staff of any deviations between the Approved Plan and the existing structure.

If the above conditions are satisfied, move on to:

- Notify Harbormaster of your intent to perform maintenance work with an accurate start date.
- Accurate start date for maintenance work: Date: _____
- Comply with all Conditions in the Order of Conditions and Certificate of Compliance.
- Comply with the Approved Plan. Remember: If as-built pier footprints are in conflict with the Approved Plan or Special Conditions, Approved Plans and Conditions shall govern.
- Note:
 - A. No creosote-treated wood allowed: CCA-treated wood only for large-diameter pilings and structural timber.
 - B. Pilings driven; jettings only for initial pilot hole.
 - C. Work mid-tides and higher to avoid grounding.
 - D. Deck plank spacing at least 3/4". Grated decking to be replaced in kind.
 - E. No lead caps on pilings.
 - F. **The DEP permit number and street address shall be permanently and conspicuously placed on the fixed pier, ramp and float.**
