CHAPTER 107-NITROGEN CONTROL BYLAW

History: Added 10-20-2014 ATM, Article 13, approved by Attorney General 2-23-2015

§107-1 Purpose

A Town bylaw to conserve valuable waterways and other resources that increase our property values, that protect our unique environment vital to our economy, and that reduce the financial burden on taxpayers and property owners by regulating the outdoor application of nitrogen on turf. The regulation of nitrogen applications will reduce the overall amount of excess nitrogen entering the Town's Resource Areas as defined in the Mashpee Wetlands Protection Bylaw (Chapter 172; Section 2) and Regulations. Reducing excess nitrogen helps protect and improve the water quality of Mashpee's two (2) valuable estuaries-Waquoit Bay and Popponesset Bay-and their associated bays, coves and waterways; as well as Mashpee's many ponds and streams.

This Town Bylaw is also critical to reducing Mashpee's Total Maximum Daily Load (TMDL) of nitrogen. Mashpee is presently in violation of the Clean Water Act because of excess nitrogen entering the Town's estuaries. The Cape Cod Commission has estimated that reducing nitrogen from outdoor lawn applications to coastal estuaries and embayment by fifty (50%) percent could save the taxpayers of Mashpee \$40 million dollars in sewerage and other wastewater treatment expenses. Scientifically we know this can be done without affecting the quality of turf in Mashpee.

§107-2 Applicability

This Bylaw shall apply to and regulate any and all applications of nitrogen through fertilizer on managed turf areas within the Town of Mashpee.

§107-3 Definitions

Agriculture - includes, farming in all its branches, generally as the cultivation and tillage of the soil, dairying, the production, cultivation, growing and harvesting of any agricultural, floricultural, viticultural or horticultural commodities, and shellfishing, including preparations and delivery to storage or to market or to carriers for transportation to market.

Best Management Practices - (BMP), means a sequence of activities designed to limit a nonpoint pollution source. For the purposes of this Bylaw, BMP means the most current edition of "Best Management Practices for Soil and Nutrient Management in Turf Systems," prepared by University of Massachusetts Extension, Center for Agriculture, Turf Program.

Certified Fertilizer Applicator - means a person certified by the Cape Cod Commission, Cape Cod Cooperative Extension, or Town of Mashpee departments, or any combination thereof, to apply fertilizer and manage turf in conformance with the BMP.

Compost or Organic Compost - means the biologically stable, humus-like material derived from composting or the aerobic, thermophilic decomposition of organic matter.

Fertilizer - means a substance that enriches the soil with the elements essential for plant growth, such as nitrogen, phosphorus potassium or other substances; fertilizer does not include those nutrients that are normally excluded from fertilizer such as chemicals that are part of horticultural gypsum, dolomite, limestone, lime, Jersey greensand, grass clippings, or compost topdressing; compost tea and liquid seaweed, as defined and applied in accordance with standards in Section 5(F), is also excluded from definition of fertilizer.

Heavy rain - is a rainfall greater than 0.25 inches per hour during a twenty four (24) hour period, or a rainfall of one (1") inch total in the next twenty four (24) hour period.

Impervious surface - means any structure, surface, or improvement that reduces or prevents absorption of storm water into land, and includes concrete, asphalt, paver blocks, gravel, decks, patios, elevated structures, and other similar structures, surfaces, or improvements.

MDAR Fertilizer Regulations - means the most recent regulations of the "Plant Nutrient Application Requirements for Agricultural Land and Land Not Used for Agricultural Purposes", developed by the Massachusetts Department of Agricultural Resources (MDAR) pursuant to its authority under G.L. c128, Section 2(k) and Section 65(A), as amended by St. 2012, c 262.330 CMR 31.00. The application of phosphorus in fertilizer if regulated, for the purposes of this bylaw, by the MDAR Fertilizer Regulations.

Naturally Vegetated Buffer Zone - means areas of indigenous vegetation. Plantings may be considered as naturally vegetated if they meet the standards of the Mashpee Conservation Commission and include a low-growing herbaceous layer of vegetation, which includes grassland, heathland or meadow plantings.

Nitrogen - means an element essential to plant growth. For the purposes of the bylaw, nitrogen may be available as slow-release, controlled-release, time-release, slowly available, or water insoluble nitrogen, which means nitrogen in a form that delays its availability for plant uptake and use after application and is not rapidly available to turf and other plants; and/or quick-release, water-soluble nitrogen which means nitrogen in a form that does not delay its availability for turf and other plant uptake and is rapidly available for turf and other plant uptake, and use after application.

Saturated ground - means soil soaked with moisture so that it cannot absorb any more liquid.

Turf, Lawn or Sod - means any non-crop land area that is covered by any grass species, excluding meadow, grasslands, flower or vegetable gardens, pasture, hay land, trees, shrubs, turf grown on turf farms or any form of agricultural production or use.

§107-4 Performance Standards

All application or nitrogen to turf shall comply with the following standards:

- A. The application of nitrogen is prohibited between October 30th and April 14th unless specifically permitted by the Town Board of Health, The Town Conservation Commission or the Board of Selectmen, as set out below. Based on early spring or fall weather conditions, soil temperature and degree of turf emergence from dormancy, or

other relevant condition, and using the guidelines of the BMP, the Town Board of Health, the Town Conservation Commission, or the Board of Selectmen may permit earlier or later application of nitrogen, in which case such extended period shall be announced by notice or publication. A working group may be established by the Board of Selectmen to assist in undertaking the duties referenced in this paragraph.

- B. No person shall cause nitrogen from any fertilizer application to apply to, or otherwise be deposited on any impervious surface including parking lot, driveway, roadway, sidewalk, frozen soil or ice. Any fertilizer applied, spilled and/or deposited on any impervious surface, either intentionally or accidentally, must be immediately and completely removed and contained and either legally applied to turf or any other legal site or returned to an appropriate container.
- C. No person shall apply nitrogen twenty four (24) hours before or during a heavy rain event or apply nitrogen to saturated ground. An application of nitrogen should be watered in with no more than one-quarter (0.25") inch of irrigation or natural rain within the next twenty four (24) hour period.
- D. The application of nitrogen is prohibited within one hundred (100') feet of the following Resource Areas, as defined in The Mashpee Wetlands Protection Bylaw, Section 2 and Regulations: any freshwater or coastal wetlands; marshes; wet meadows; bogs; swamps; vernal ponds; lakes; ponds; rivers, streams; creeks; and estuaries. Notwithstanding the above, where there is a fifty (50') foot naturally vegetated buffer zone to an freshwater or coastal wetlands; marshes; wet meadows; bogs; swamps; vernal pools; ponds; lakes; and estuaries, an application of nitrogen is prohibited within fifty (50') feet of that protected Resource Area. An application of nitrogen is prohibited within one hundred (100') feet of any rivers; streams; and creeks, as defined in the Rivers Protection Act, Chapter 258 of the Acts of 1996. There are alternative methods of enhancing turf within these prohibited areas without application of nitrogen; see Sections 5(E) and Sections 5(F). A Certified Fertilizer Applicator may apply to the Town Conservation Commission for approval to authorize limited applications of nitrogen on turf within these prohibited areas. A working group may be established by the Town Conservation Commission to assist in undertaking the duties referenced in this paragraph.

§107-5 Exemptions

The following activities shall be exempt from Section 4:

- A. Application of nitrogen for agriculture and horticulture uses; these applications are regulated by the MDAR Fertilizer Regulations.
- B. Application of fertilizer to golf courses, except that any application of nitrogen on greens or fairways within Resource Areas referenced in Section 4(D) shall comply with the Recommendations set forth in Section 6, and shall use eighty five (85%) percent or higher slow-release, water-soluble nitrogen, in organic or inorganic form applied with drop spreaders or spreaders with side guards to prevent application onto Resource Areas and other non-turf areas. Golf courses with liners installed adjacent to ponds and other Resource Areas to prevent leaching of nitrogen are exempt from Section 4(D) in those areas where such lines are installed.
- C. Application of nitrogen to gardens, including vegetable and flower, trees, shrubs and indoor applications including greenhouses; these applications are regulated by the MDAR Fertilizer Regulations.

- D. Application of nitrogen for the establishment of new vegetation in the first growing season, or repairing of turf in the first growing season, after substantial damage, with the restrictions described in Section 5(B) for applications in the buffer zone of regulated Resource Areas referenced in Section 4(D).
- E. Application of compost or other similar materials that are primarily organic in nature and are applied to improve the physical condition of the soil.
- F. Compost tea and liquid seaweed applications, including formulas with less than five (5%) percent total nitrogen, if only and if applied in a manner that follows label recommendations and/or standard industry recommendations for a foliar application to the point of leaf runoff. No root drenching of compost tea or liquid seaweed with nitrogen is permitted within the buffer zone of regulated Resource Areas referenced in Section 4(D).

§107-6 Recommendations

The Town of Mashpee strongly recommends that nitrogen should be applied to turf and other plants at the lowest rate necessary, as is described in the BMP. Any single application of nitrogen should not exceed 0.5 pounds of nitrogen per one thousand (1,000') square feet, and the annual aggregate total application of nitrogen should not exceed one (1.0) pound per one thousand (1,000') square feet. The application of any nitrogen should be of a natural-organic, slow release, water-soluble form.

§107-7 Enforcement Authority

The enforcement authority for Performance Standards 4(A-C) shall be the Agents of the Board of Health or his or her designees. Enforcement of the provisions in Section 4(D) shall be the Agents of the Conservation Commission or his or her designees.

The fine for the first (1st) offense shall be no greater than one hundred fifty (\$150) dollars. A warning in lieu of a fine or other enforcement action for the first (1st) offence can be issued at the discretion of the enforcement authority. The fine for a second (2nd) offence shall be two hundred fifty (\$250) dollars. The fine for each subsequent offense shall be three hundred (\$300) dollars.

§107-8 Severability Clause

Should any Section, part or provision of this bylaw be deemed invalid or unconstitutional, such decision shall not affect the validity of the remaining terms of the bylaw as a whole or any part thereof, other than the Section, part or provision held invalid or unconstitutional.

The COMMISSION may further limit the time periods set forth herein as it deems appropriate.

§110-3 District Boundaries:

The DISTRICT shall consist of one or more DISTRICT areas as follows:

- A. **MASHPEE HISTORIC DISTRICT** - The Mashpee Historic District shall be a DISTRICT area under this Chapter. The location and boundaries of the Mashpee Historic District are defined and shown on the Local Historic District Map of the Town of Mashpee, Sheet 1 which is a part of this Chapter and is on file in the office of the Town Clerk. Sheet 1 is based on the 2006 Mashpee Assessors' Map. The delineation of the DISTRICT area boundaries is based on the parcel boundaries then in existence and shown therein, except as otherwise apparent on Sheet 1.

§110-4 Design Guidelines:

The COMMISSION, after a public hearing duly posted and advertised at least fourteen (14) days in advance in a conspicuous place in Town Hall and in a newspaper of general circulation, may adopt and from time to time amend guidelines which set forth the designs for certain EXTERIOR ARCHITECTURAL FEATURES which are, in general, suitable for the issuance of a CERTIFICATE within each Historic District area. No such design guidelines shall limit the right of an applicant for a CERTIFICATE to present other designs to the COMMISSION for approval.

§110-5 Alterations and Construction Prohibited without a Certificate:

- A. Except as this Chapter provides, no BUILDING or STRUCTURE or part thereof within a DISTRICT shall be CONSTRUCTED or ALTERED or DEMOLISHED in any way that affects the EXTERIOR ARCHITECTURAL FEATURES as visible from a public way, unless the COMMISSION shall first have issued a CERTIFICATE with respect to such CONSTRUCTION or ALTERATION.
- B. No Building Permit for CONSTRUCTION of a BUILDING or STRUCTURE or for ALTERATION of an EXTERIOR ARCHITECTURAL FEATURE within a DISTRICT and no demolition permit for demolition or removal of a BUILDING or STRUCTURE within a DISTRICT shall be issued by the Town or any department thereof until a CERTIFICATE as required under this Chapter has been issued by the COMMISSION.

§110-6 Procedures for Review of Applications:

- A. Any person who desires to obtain a CERTIFICATE from the COMMISSION shall file with the COMMISSION, in care of the office of the Town Clerk, an application for a CERTIFICATE of Appropriateness, of Non-Applicability or of Hardship, as the case may be. The application shall be accompanied by such plans, elevations, specifications, material and other information, including in the case of demolition or removal a statement of the proposed condition and appearance of the property thereafter, as may be reasonably deemed necessary by the COMMISSION to enable it to make a determination on the application. The Town Clerk shall certify the date of receipt of said application and shall forthwith transmit said application to the Chairman of the COMMISSION or another person designated by the COMMISSION.
- B. The COMMISSION or its designee shall determine within fourteen (14) days of the filing of an application for a CERTIFICATE whether said application involves any EXTERIOR ARCHITECTURAL FEATURES which are within the jurisdiction of the COMMISSION.

- C. If the COMMISSION or its designee determines that an application for a CERTIFICATE does not involve any EXTERIOR ARCHITECTURAL FEATURES, or involves an EXTERIOR ARCHITECTURAL FEATURE which is not subject to review by the COMMISSION under the provisions of this Chapter, the COMMISSION shall forthwith issue a CERTIFICATE of Non-Applicability.
- D. If the COMMISSION or its designee determines that such application involves any EXTERIOR ARCHITECTURAL FEATURE subject to review under this Chapter, the COMMISSION shall hold a public hearing on the application, except as may otherwise be provided in this Chapter, within forty five (45) days from the date of the filing of the application. At least fourteen (14) days before said public hearing, public notice shall be given by posting in a conspicuous place in Town Hall. Such notice shall identify the time, place and purpose of the public hearing. Concurrently, a copy of said public notice shall be mailed, postage prepaid, to: the applicant; to the owners of all adjoining properties and of other properties deemed by the COMMISSION to be materially affected thereby, all as they appear on the most recent applicable tax list; to the Planning Board; to any person filing a written request for notice of hearings, such request to be renewed yearly in December; and to such other persons as the COMMISSION shall deem entitled to notice.
- E. A public hearing on an application for a CERTIFICATE need not be held if such hearing is waived in writing by all persons entitled to notice thereof. In addition, a public hearing on an application for a CERTIFICATE may be waived by the COMMISSION if the COMMISSION determines that the EXTERIOR ARCHITECTURAL FEATURE involved, or its category, is so insubstantial in its effect on the DISTRICT that it may be reviewed by the COMMISSION without a public hearing. If the COMMISSION dispenses with a public hearing on an application for a CERTIFICATE, notice of such application shall be given to the owners of all adjoining property and of other property deemed by the COMMISSION to be materially affected thereby as above provided, and ten (10) days shall elapse after the mailing of such notice before the COMMISSION may act upon such application.
- F. Within sixty (60) days after the filing of an application for a CERTIFICATE, or within such further time as the applicant may allow in writing, the COMMISSION shall issue a CERTIFICATE or a disapproval. In the case of a disapproval of an application for a CERTIFICATE, the COMMISSION shall set forth in its disapproval the reasons for such disapproval. The COMMISSION may include in its disapproval specific recommendations for changes in the applicant's proposal with respect to the appropriateness of design, arrangement, texture, material and similar features that, if made and filed with the COMMISSION in a subsequent application, would make the application acceptable to the COMMISSION.
- G. The concurring vote of a majority of the members of the COMMISSION, including any Alternate Members designated to hear the application, shall be required to issue a CERTIFICATE.
- H. In issuing CERTIFICATES, the COMMISSION may, as it deems appropriate, impose certain conditions and limitations, and may require architectural or plan modifications consistent with the intent and purpose of this Chapter.
- I. If the COMMISSION determines that the CONSTRUCTION or ALTERATION or DEMOLITION for which an application for a CERTIFICATE of Appropriateness has been filed will be appropriate for or compatible with the preservation or protection of the DISTRICT, the COMMISSION shall issue a CERTIFICATE of Appropriateness.

- J. If the CONSTRUCTION or ALTERATION or DEMOLITION for which an application for a CERTIFICATE of Appropriateness has been filed shall be determined to be inappropriate and therefore disapproved, or in the event of an application for a CERTIFICATE of Hardship, the COMMISSION shall determine whether, owing to conditions especially affecting the BUILDING or STRUCTURE involved, but not affecting the DISTRICT generally, failure to approve an application will involve a substantial hardship, financial or otherwise, to the applicant and whether such application may be approved without substantial detriment to the public welfare and without substantial derogation from the intent and purposes of this Chapter. If the COMMISSION determines that owing to such conditions failure to approve an application will involve substantial hardship to the applicant and approval thereof may be made without such substantial detriment or derogation, the COMMISSION shall issue a CERTIFICATE of Hardship.
- K. The COMMISSION shall send a copy of its CERTIFICATES and disapprovals to the applicant and shall file a copy of its CERTIFICATES and disapprovals with the office of the Town Clerk and the Building Inspector. The date of issuance of a CERTIFICATE or disapproval shall be the date of the filing of a copy of such CERTIFICATE or disapproval with the office of the Town Clerk.
- L. If the COMMISSION should fail to issue a CERTIFICATE or a disapproval within sixty (60) days of the filing of the application for a CERTIFICATE, or within such further time as the applicant may allow in writing, the COMMISSION shall thereupon issue a CERTIFICATE of Hardship Due to Failure to Act.
- M. Each CERTIFICATE issued by the COMMISSION shall be dated and signed by its chairperson or such other person designated by the COMMISSION to sign such CERTIFICATES on its behalf.
- N. A PERSON AGGRIEVED by a determination of the COMMISSION may, within twenty days of the issuance of a CERTIFICATE or disapproval, file a written request with the COMMISSION for a review by a person or persons of competence and experience in such matters, acting as arbitrator and designated by the regional planning agency. The finding of the person or persons making such review shall be filed with the Town Clerk within forty-five (45) days after the request, and shall be binding on the applicant and the COMMISSION, unless a further appeal is sought in the Superior Court as provided in Chapter 40C, §12A. The filing of such further appeal shall occur within twenty (20) days after the finding of the arbitrator has been filed with the office of the Town Clerk.

§110-7 Criteria for Determinations:

- A. In deliberating on applications for CERTIFICATES, the COMMISSION shall consider, among other things, the historic and architectural value and significance of the site, BUILDING or STRUCTURE; the general design, proportions, detailing, mass, arrangement, texture, and material of the EXTERIOR ARCHITECTURAL FEATURES involved; and the relation of such EXTERIOR ARCHITECTURAL FEATURES to similar features of BUILDINGS and STRUCTURES in the surrounding area.
- B. In the case of new CONSTRUCTION or additions to existing BUILDINGS or STRUCTURES, the COMMISSION shall consider the appropriateness of the scale, shape and proportions of the BUILDING or STRUCTURE both in relation to the land area upon which the BUILDING or STRUCTURE is situated and in relation to BUILDINGS and STRUCTURES in the vicinity. The COMMISSION may in appropriate cases impose dimensional and setback requirements in addition to those required by applicable statute or bylaw.

- C. When ruling on applications for CERTIFICATES on solar energy systems as defined in MGL C. 40A, §1A the COMMISSION shall consider the policy of the Commonwealth of Massachusetts to encourage the use of solar energy systems and to protect solar access.
- D. The COMMISSION shall not consider interior arrangements or architectural features not subject to public view from a public way.

§110-8 Exclusions:

- A. The COMMISSION shall exclude from its review the following:
 - 1. Temporary BUILDINGS, STRUCTURES or SIGNS subject, however, to conditions pertaining to the duration of existence and use, location, lighting, removal and similar matters as the COMMISSION may reasonably specify in a CERTIFICATE of Non-Applicability.
 - 2. Terraces, walks, driveways, sidewalks and similar STRUCTURES, provided that any such STRUCTURE is substantially at grade level.
 - 3. Storm windows and doors, screen windows and doors, and window air conditioners.
 - 4. The color of paint on residential buildings and structures.
 - 5. The color of materials used on roofs of residential buildings and structures.
 - 6. SIGNS of not more than four (4') square feet in DISPLAY AREA, either freestanding or attached to a building, indicating the street number or name of the occupant of the premises, or both, which may also include identification in connection with use of a residence for a customary home occupation or for professional purposes, provided only one such sign is displayed in connection with each residence and, if illuminated, is illuminated only indirectly.
 - 7. One (1) real estate, "for sale" or "for rent" SIGN, not more than five (5') square feet in DISPLAY AREA, and advertising only the premises on which the sign is located, provided that such SIGN is removed forthwith upon the signing of a legally binding purchase and sales, rental or lease agreement.
 - 8. One building contractor's SIGN while a building on the premises is actually under CONSTRUCTION or ALTERATION, not exceeding five (5') square feet in DISPLAY AREA, provided that such sign is removed forthwith upon completion of said CONSTRUCTION or ALTERATION.
 - 9. The reconstruction, substantially similar in exterior design, of a BUILDING, STRUCTURE or EXTERIOR ARCHITECTURAL FEATURE damaged or destroyed by fire, storm or other disaster, provided such reconstruction is begun within one year thereafter and carried forward with due diligence.
- B. Upon request, the COMMISSION shall issue a CERTIFICATE of Non-Applicability with respect to CONSTRUCTION or ALTERATION in any category not subject to review by the COMMISSION in accordance with the above provisions.
- C. Nothing in this bylaw shall be construed to prevent the ordinary maintenance, repair or replacement of any EXTERIOR ARCHITECTURAL FEATURE within a DISTRICT which does not involve a change in design, material or the outward appearance thereof,

nor to prevent landscaping with plants, trees or shrubs, nor construed to prevent the meeting of requirements certified by a duly authorized public officer to be necessary for public safety because of an unsafe or dangerous condition, nor construed to prevent any CONSTRUCTION or ALTERATION under a permit duly issued prior to the effective date of this bylaw.

§110-9 Categorical Approval:

The COMMISSION may determine from time to time after a public hearing, duly advertised and posted at least fourteen (14) days in advance in a conspicuous place in Town Hall and in a newspaper of general circulation in Mashpee that certain categories of EXTERIOR ARCHITECTURAL FEATURES, STRUCTURES or BUILDINGS under certain conditions may be CONSTRUCTED or ALTERED without review by the COMMISSION without causing substantial derogation from the intent and purpose of this Chapter.

§110-10 Enforcement and Penalties:

- A. The COMMISSION shall determine whether a particular activity is in violation of this Chapter or not, and the COMMISSION shall be charged with the enforcement of this Chapter.
- B. The COMMISSION, upon a written complaint of any resident of Mashpee or owner of property within Mashpee or upon its own initiative, shall institute any appropriate action or proceedings in the name of the Town of Mashpee to prevent, correct, restrain or abate violation of this Chapter. In the case where the COMMISSION is requested in writing to enforce this Chapter against any person allegedly in violation of same and the COMMISSION declines to act, the COMMISSION shall notify, in writing, the party requesting such enforcement of any action or refusal to act and the reasons therefore, within twenty one (21) days of receipt of such request.
- C. Whoever violates any of the provisions of this Chapter shall be punishable by a fine of up to three hundred (\$300) dollars for each offense. Each day during any portion of which such violation continues to exist shall constitute a separate offense.
- D. The COMMISSION may designate the Building Inspector of the Town of Mashpee, or another Town Official, to act on its behalf and to enforce this Chapter under the direction of the COMMISSION.

§110-11 Validity and Separability:

The provisions of this Chapter shall be deemed to be separable. If any of its provisions, sections, subsections, sentences or clauses shall be held to be invalid or unconstitutional by any court of competent jurisdiction, the remainder of this Chapter shall continue to be in full force and effect.

§172-7 Permits; Determinations and Conditions:

- A. If the Commission, after a public hearing, determines that the activities which are the subject of the application are likely to have significant or cumulative effect upon the wetland values protected by this chapter, the Commission, within twenty-one (21) days of the close of the hearing, shall issue or deny a permit for the activities requested. If it issues a permit, the Commission shall impose conditions which the Commission deems necessary or desirable to protect those values, and all activities shall be done in accordance with those conditions.

History: Amended 10-2-1995 ATM, Article 10, approved by Attorney General 12-1-1995.

History: Amended 5-6-1997 ATM, Article 34, approved by Attorney General 9-25-1997.

1. Lands within one hundred (100') feet of specific resource areas, and lands within two hundred (200') feet of rivers, are presumed important to the protection of these resources because activities undertaken in close proximity to wetlands, rivers, streams, lakes, ponds, creeks, estuaries, the ocean and/or other resource areas have a high likelihood of adverse impact upon them, either immediately, as a consequence of construction, or over time, as a consequence of daily operation or existence of activities. These adverse impacts from construction and use can include, without limitation, erosion, siltation, loss of groundwater recharge, poor water quality, and loss of wildlife habitat. The Commission therefore may require that the applicant maintain a continuous naturally vegetated buffer strip (NVBS) within the aforesaid one hundred (100') foot (or two hundred (200') feet for rivers) area with the aim of minimizing adverse impacts to resource areas and the wetland values of Chapter 172. (This requirement will not preclude access pathways through said NVBS, as determined by regulations for this Chapter.) Said NVBS shall be a minimum of fifty (50') feet in width unless the applicant convinces the Commission (as per the provisions of Section 12 of this Chapter) that:
 - (a) The NVBS (or part of it) may be disturbed and/or diminished without harm to the values protected by this Chapter, or
 - (b) That reducing the scope of work/alteration is not possible.
2. Areas within two hundred (200') feet of rivers.
 - (a) Notwithstanding the above, in the case of areas within two hundred (200') feet of rivers, no permit issued hereunder shall permit any activities unless the applicant, in addition to meeting the otherwise applicable requirements of this Chapter, has proved by a preponderance of credible evidence that there is no practicable alternative to the proposed project with less adverse effects, and, as well, should there be no such practicable alternative, that such activities, including proposed mitigation measures, will have no significant adverse impact on the areas or values protected by this bylaw. The Commission shall regard as practicable an alternative which is reasonably available and capable of being done after taking into consideration the proposed property use, overall project purposes, logistics, existing technology, costs of the alternatives, and overall project costs.
3. Waivers of Requirements.

History: Amended 10-2-2000 ATM, Article 25, approved by Attorney General 1-12-2001.
History: Amended 5-7-2001 ATM, Article 27, approved by Attorney General 8-17-2001.

 - (a) The Commission may, at its discretion for good cause shown, grant waivers from the requirements of one or more of the regulations and/or

performance standards pursuant to Chapter 172. Such waivers are intended to be granted only in rare and unusual cases, and only when resource protection would be enhanced relative to preexisting conditions.

(b) A waiver shall be granted only for the following reasons and conditions:

- (1) It shall be the responsibility of the applicant to provide the Commission with the necessary information and plans which the Commission may request in writing and/or at a public hearing, in order to enable the Commission to ascertain impacts to the wetland values of Chapter 172. The failure of the applicant to furnish any information which has been so requested shall result in the denial of a request for a waiver pursuant to this subsection.
- (2) The Commission may grant a waiver from the regulations for Chapter 172 when portions of the Buffer Zone between the proposed project and adjacent resource area(s) are previously altered and/or are not within the control of the project owner/applicant, such as public or semi-public pedestrian and vehicular access-ways.
- (3) The Commission may grant a waiver from the regulations for Chapter 172 only upon a finding by the Commission that a project will improve the natural capacity of a resource area to protect the wetland values identified in Section 1 of this bylaw. Further, any waiver pursuant to this sub-section, will only be granted when:
 - 1) best-available technologies/methodologies are utilized to improve the natural capacity of any resource area to protect the relevant wetland values inherent to the site, and
 - 2) any adverse effects on wetland values are minimized, to the greatest extent feasible, by carefully considered conditions. However, no such waiver may be permitted for any project which could have an adverse effect on rare wildlife species.
- (4) The Commission may impose additional conditions in granting a permit pursuant to this Section, as deemed necessary or desirable to protect the wetland values of Chapter 172. Said conditions may include (but are not limited to) imposing limits on project size or effect, or requiring other compensatory measures, such as wetland replication, wildlife habitat enhancement and pollution attenuation measures.

B. The Commission is empowered to deny a permit for failure to meet the requirements of this chapter; for failure to submit necessary information and plans requested by the Commission; for failure to meet the design specifications, performance standards and other requirements in regulations of the Commission; for failure to avoid or prevent unacceptable significant or cumulative effects upon the wetland values protected by this chapter; and where no conditions are adequate to protect those values.

C. Unless a certificate of compliance is issued, a permit shall expire three (3) years from the date of issuance. Notwithstanding the above, the Commission, in its discretion, may

issue a permit expiring five (5) years from the date of issuance for recurring or continuous maintenance work, provided that annual notification of time and location of work is given to the Commission. Any order of conditions may be extended an additional three (3) years through the filing of a request for an Extension of Order of Conditions (WPA Form 7), provided that a request for renewal is received in writing by the Commission prior to the original date of expiration. Approval of permit extension requests shall be at the discretion of the Commission.

History: Amended 5-4-2015 ATM, Article 23, approved by Attorney General 8-11-2015

1. a written request for renewal is received at least thirty (30) days prior to the expiration date of the original permit (issued under Chapter 172);

and that the Commission finds that:

2. delays in initiating or completing the originally permitted work were unavoidable (including, but not limited to, appeals or inability to obtain other, applicable permits);
3. current information indicates that the provisions of the original permit remain adequate to protect wetland values of Chapter 172. The Commission may, if it deems it necessary, require updated plans and/or other information to make this determination;
4. permitted incomplete work meets the current provisions and regulations of Chapter 172 (as in effect at the time of the receipt of the written request for renewal);
5. incomplete work is not causing damage to the wetland values of Chapter 172;
6. work already completed is in compliance with the provisions of the original permit.

History: Amended 5-5-2003 ATM, Article 17, approved by Attorney General 8-27-2003.

- D. For good cause the Commission may revoke or modify a permit issued under this chapter after public notice and public hearing and notice to the holder of the permit. The time requirements specified in §172-5 shall be applicable.
- E. The Commission, in an appropriate case, may combine the permit or other action on an application issued under this chapter with the order of conditions issued under the Wetlands Protection Act.
- F. The Commission shall require that a permit issued hereunder (an Order of Conditions) be recorded in the Registry of Deeds, or, if the land affected thereby be registered land, in the registry district of the Land Court for the district wherein the land lies. The work proposed in said Order of Conditions shall not begin until the holder of the Order of Conditions provides documentation in a form prescribed by the Commission as proof that said Order of Conditions has been recorded.

- G. Certificate of Compliance

History: Amended 10-3-94 ATM, Article 21, approved by Attorney General 1-18-95

1. Upon completion of the work performed under an Order of Conditions, the holder of the permit shall forth-with request in writing that a Certificate of Compliance be issued, stating that the work has been satisfactorily completed. Said Certificate of Compliance shall be processed and issued in conformity with the provisions as noted in 310 CMR 10.05 (9) (a) through (f). No new permit shall be issued for any

project on a property with respect to which a Certificate of Compliance has not been issued for an outstanding Order of Conditions.

History: Amended 10-15-2012 ATM, Article 12, approved by Attorney General 11-9-2012

2. Before any sale of property that is under the jurisdiction of a Chapter 172 Order of Conditions, the holder of said permit must either request and receive a Certificate of Compliance (as per the provisions of 1, (above) or request that the permit will be in the name of the new property-owner.
3. Failure to carry out the provisions of Chapter 172, §7-G(2), above, shall constitute a violation of Chapter 172 and be subject to penalty as per the provisions of §11.F of Chapter 172.

§172-8 Promulgation of Regulations:

After a public notice and public hearing, the Commission shall promulgate rules and regulations to effectuate the purposes of this chapter and may, from time to time, amend them. Failure by the Commission to promulgate such rules and regulations or a legal declaration of their invalidity by a court of law shall not act to suspend or invalidate the effect of this chapter.

- A. The applicant for a permit shall have the burden of proving by a preponderance of credible evidence that the work proposed in the application will not have unacceptable significant or cumulative effect upon the wetland values protected by this chapter.
