

**MASHPEE SEWER COMMISSION
DEVELOPMENT AND EVALUATION OF ALTERNATIVE SCENARIOS
WATERSHED NITROGEN MANAGEMENT PLAN**

TABLE OF CONTENTS

EXECUTIVE SUMMARY

GLOSSARY OF COMMON ACRONYMS

	<u>Page</u>
CHAPTER 1 INTRODUCTION	
1.1 Project Identification and Purpose.....	1-1
1.2 Massachusetts Estuaries Project Findings	1-2
1.3 Needs Assessment Report Findings.....	1-3
1.4 Technology Screening Report Summary	1-5
CHAPTER 2 PRELIMINARY SITE EVALUATION AND DESIGN	
2.1 Introduction.....	2-1
2.2 Treated Water Recharge Technologies.....	2-1
2.3 Preliminary Site Evaluations	2-2
2.4 USGS Modeling Efforts.....	2-4
2.5 2007 Site Evaluations	2-8
2.6 Wastewater Treatment Issues to Consider.....	2-18
2.7 Wetland Restoration at the Santuit Bogs	2-21
CHAPTER 3 ALTERNATIVE SCENARIOS	
3.1 Introduction.....	3-1
3.2 Scenario 1 – No Expansion of Existing Treatment Plants.....	3-4
3.3 Scenario 2 – Expansion of Existing Treatment Facilities.....	3-7
3.4 Scenario 3 – Nitrex TM	3-9
3.5 Scenario 4 – Fair Share Reduction	3-9
3.6 Scenario 5 – Centralized Wastewater Treatment.....	3-12
3.7 Summary	3-13

TABLE OF CONTENTS (continued)

CHAPTER 4 SCENARIO EVALUATION AND COSTS

4.1	Introduction.....	4-1
4.2	Scenario 1 – Existing Treatment Plant Plus Construction of New Treatment Plants	4-2
4.3	Scenario 2 – Expansion of Existing Treatment Facilities.....	4-3
4.4	Scenario 4 – Fair Share Reduction	4-4
4.5	Scenario 5 – Centralized Treatment Facilities.....	4-4
4.6	Cost Analysis	4-5
4.7	Summary	4-8

CHAPTER 5 SCENARIO MODELING

5.1	Introduction.....	5-1
5.2	Comparison of Scenarios with MEP Requirements	5-2
5.3	MEP Modeling Scenarios	5-4
5.4	MEP Modeling Results.....	5-7
5.5	Summary and Recommendations	5-7

LIST OF TABLES

Table No.

1-1	Percent Nitrogen Removals From Septic Systems
1-2	Priority Area Criteria Summary
1-3	Summary of Total Nitrogen Loads Per Town
1-4	Summary of Nitrogen Loads by Planning Area
2-1	Preliminary Site Capacities
2-2	Selected Sites' Capacities
2-3	Preliminary Site Identification
2-4	Preliminary Site Screening Analysis
3-1	Summary of Project Planning Area Estimated Flows and Nitrogen Loads
3-2	Estimated Number of Properties Served Under Each Scenario (1, 2, 4 and 5)
3-3	Summary of Wastewater Treatment and Recharge
3-4	Existing WWTF Design Life and Permit Expiration Years
4-1	Scenario 1 Infrastructure Summary
4-2	Scenario 2 Infrastructure Summary
4-3	Scenario 4 Infrastructure Summary
4-4	Scenario 5 Infrastructure Summary
4-5	Infrastructure Summary by Town and Scenario
4-6	Summary of Basis Used in Order of Magnitude Cost Development

TABLE OF CONTENTS (continued)

LIST OF TABLES (continued)

Table
No.

4-7	Comparison of Estimated Scenario Costs (Scenarios 1, 2, 4, and 5)
4-8	Comparison of Estimated Scenario Total Present Worth of Costs (Scenarios 1, 2, 4, and 5)
4-9	Scenario Summary
5-1	Comparison of Nitrogen Loading Rates
5-2	Summary of Popponessett Bay Nitrogen Loads
5-3	Summary of Waquoit Bay Nitrogen Loads
5-4	Nitrogen Loads, Waquoit Bay East – Scenario 1
5-5	Nitrogen Loads, Popponessett Bay – Scenario 1
5-6	Nitrogen Loads, Waquoit Bay East – Scenario 2
5-7	Nitrogen Loads, Popponessett Bay – Scenario 2
5-8	Nitrogen Loads, Waquoit Bay East – Scenario 4
5-9	Nitrogen Loads, Popponessett Bay – Scenario 4
5-10	Nitrogen Loads, Waquoit Bay East – Scenario 5
5-11	Nitrogen Loads, Popponessett Bay – Scenario 5

LIST OF FIGURES

Figure
No.

1-1	Project Planning Area
1-2	MEP Percent Removals
1-3	Priority Areas
1-4	Barnstable Areas of Concern
2-1	Potential Effluent Recharge Sites
2-2	Model Run 1
2-3	Model Run 2
2-4	Model Run 3
2-5	Model Run 4
2-6	Model Run 5
2-7	Model Run 6
2-8	Model Run 7
2-9	Model Run 8
2-10	Model Run 9
2-11	Model Run 10
2-12	Typical Sand Bed Layout
2-13	Typical Subsurface Infiltration Layout

TABLE OF CONTENTS (continued)

LIST OF FIGURES (continued)

Figure
No.

2-14	Typical Drip Irrigation Layout
2-15	Site 1 – Heritage Park Ball Fields
2-16	Site 1 – Conceptual Infiltration Layout
2-17	Site 2 – Ashumet Road
2-18	Site 2 – Conceptual Sand Bed Layout
2-19	Site 4 – Transfer Station
2-20	Site 4 – Conceptual Sand Bed Layout
2-21	Site 5 – High School Ball Fields
2-22	Site 5 – Conceptual Subsurface Infiltration Layout
2-23	Site 6 – Keeter Property
2-24	Site 6 – Conceptual Sand Bed Layout
2-25	Site 7 – New Seabury Country Club
2-26	Site 7 – Conceptual Subsurface Infiltration Layout
2-27	Site 11 – 168 Route 130 (Sandwich)
2-28	Site 11 – Conceptual Sand Bed Layout
2-29	Site 12 – Bartlett Property
2-30	Site 12 – Conceptual Sand Bed Layout
2-31	Site 13 – Adjacent to High School
2-32	Site 13 – Conceptual Sand Bed Layout
3-1	Scenario 1 Schematic
3-2	Alternative Scenario 1
3-3	Scenario 2 Schematic
3-4	Alternative Scenario 2
3-5	Scenario 4 Schematic
3-6	Alternative Scenario 4
3-7	Scenario 5 Schematic
3-8	Alternative Scenario 5
