

B. Private Lands of Conservation Interest

Private lands of conservation interest which are not yet protected are shown on Map 5-3, and include parcels at the south end of Ashumet Pond which are critical for protection of endangered plant species, adjacent or infill lands at the Noisy Hole and Santuit River Conservation Areas and the Santuit Pond Preserve, lands required to complete the Mashpee River Corridor Project and Cross-Cape Trail, and other parcels required to fill out the boundaries of existing conservation areas and the National Wildlife Refuge.
