

ARTICLE I – SINGLE-USE PLASTIC BAG

§126-1 Purpose and Intent:

The production, use and disposition of single-use plastic bags, as defined herein, has significant impacts on the marine and terrestrial environment of all coastal communities, including but not limited to:

- A. Contributing to the injury and even death of marine and terrestrial animals through ingestion and entanglement;
- B. Contributing to pollution and degradation of the terrestrial and coastal environment; 96
- C. Clogging our storm drainage systems;
- D. Creating mechanical and disposal of burdens for solid waste collection and recycling facilities; and
- E. Requiring the use of millions of barrels on on-renewable, polluting, fossil fuel nationally for their manufacture.

1. Studies have shown that even those plastic bags made from “biodegradable,” “compostable” or oxo-biodegradable” materials, which all require very specific and controlled environments to fulfill their claims, are for all intents and purposes identical to single-use high or low-density polyethylene plastic bags in their potential impacts to the environment as set forth above. Bags of these types are therefore also subject to the requirements here.

2. The goal of this bylaw is to join our neighboring towns on Cape Cod in protecting, conserving and enhancing our unique natural beauty and irreplaceable natural resources by phasing out, within the retail sector, the use of certain single-use plastic bags, as defined herein, and by encouraging the use of reusable bags within the retail and municipal sectors. Therefore, the Town of Mashpee seeks to phase out the use of single-use plastic bags by December 31, 2017.
