

Noisy Hole

Acres: 144.12

Trail Length: 2.5 mi

Looking for new ways to explore our conservation land? Try out geocaching! Go on a scavenger hunt using latitude and longitude coordinates to find hidden objects and unique land features. All you need is a handheld GPS or phone with GPS capabilities. To sign up go to geocaching.com. See how many hidden caches you can find!

Land Features

This land was acquired through 2000. The land was purchased for public education programs and for wildlife habitat protection. The walking trails cross predominantly through mixed forest with some freshwater swamps. The land is home to white tailed deer, red and grey foxes, painted turtles, and great horned owls.

Parking: Parking is located at the end of the paved portion of Noisy Hole Road off of Rt 28.
